

■ COMPANY OVERVIEW

Contributing to the development of Vietnam's cold chain with high technology and quality proven in Japan's home delivery business

Currently, Sagawa Express in Japan is providing delivery services to meet various customer needs by operating approximately 13,000 trucks that can simultaneously transport three types of goods: goods that need to be frozen, goods that need to be refrigerated, and goods that can be transported at room temperature.

These trucks are manufactured by SG Motors, and its heart, the "Rubin Box," is manufactured by SG Motors Vietnam..

SG Motors Vietnam will continue to support Vietnam's cold chain with a variety of products manufactured using Japanese technology and quality standards

RUBIN-BOX

What is the RUBIN-BOX?

The RUBIN-BOX is a refrigerator installed in truck. This allows for the transportation of goods in three temperature zones: frozen, refrigerated and ambient, all in once.

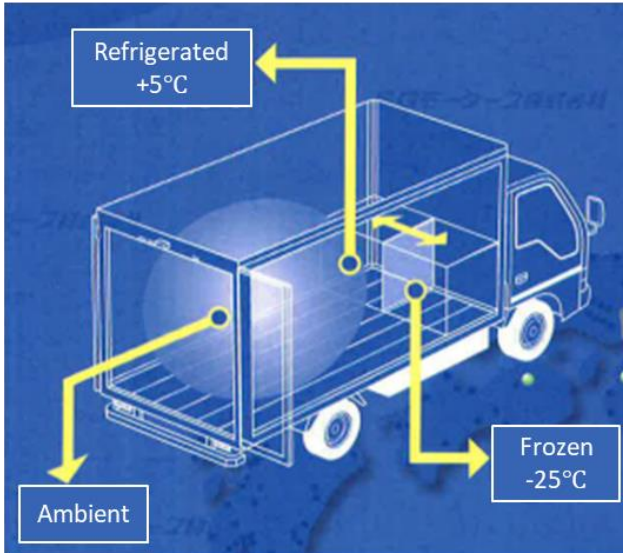

SAGAWA utilizes approximately 13,000 RUBIN-BOX-equipped trucks in Japan for home delivery services, supporting Japanese demand.

Quality

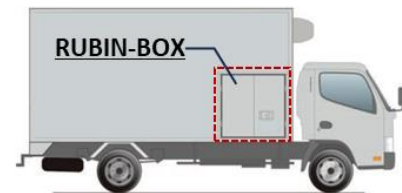

We use components that meet Japanese quality standards and manufacture each unit with care based on Japanese manufacturing processes.

In addition to checking the quality of each product, workers must pass a technical evaluation test to ensure that the products produced are consistent and of high quality.

Functionality

The freezer compartment can cool down to -25°C , while the refrigerator compartment can maintain $+5^{\circ}\text{C}$, allowing for simultaneous management of different temperature zones. The freezer and refrigerator compartments are separated by a soft partition, which can be moved to expand the freezer space or removed entirely to use the entire compartment only for freezer.

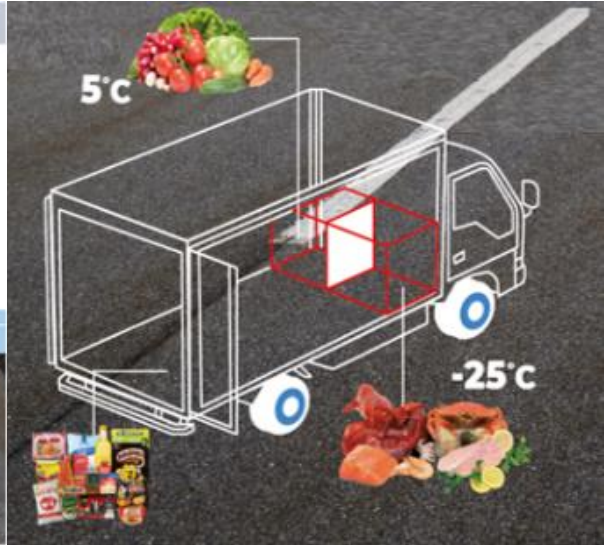

Utilization

The RUBIN-BOX, which enables three-temperature zone transportation, contributes to reducing operational costs and the number of vehicles required.

(Examples of Utilization)

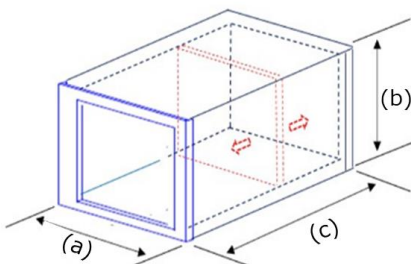

- Delivery from large stores to satellite stores or private homes
- Simultaneous delivery of pharmaceuticals requiring frozen storage and those that can be transported at ambient temperature

■ HINO XZU650 Equipped with RUBIN-BOX

| Specification | |
|---------------------------|------------------------------------|
| Chassis | HINO XZU650L-WBMMN3 |
| Freezer | DENSO SF1 |
| Truck Exterior Dimensions | L: 6280mm x W: 1880mm x H: 2920mm |
| Body Exterior Dimensions | L: 4695mm x W: 1860 mm x H: 1940mm |
| Body Interior Dimensions | L: 4550mm x W: 1810 mm x H: 1860mm |
| Payload Capacity | 1350 kg |
| Gross Vehicle Weight | 4990kg |

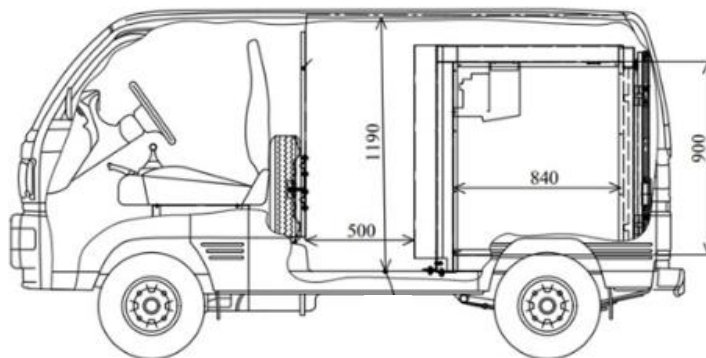

| RUBIN-BOX Size | | | | |
|----------------|----------|------------|--------------|------------|
| | Wide (a) | Height (b) | | Length (c) |
| | | Frozen | Refrigerated | |
| Exterior | 1200mm | 1050mm | | 1740mm |
| Interior | 1043mm | 725mm | 840mm | 1640mm |

* The partition (50 mm thick) can be moved 200 mm to the left or right, allowing for adjustment of the sizes of the refrigerator and freezer compartments.

* By removing the partition, it is also possible to use the entire space as a single compartment.

■ SUZUKI CARRY BLIND VAN Equipped with RUBIN-BOX

| Specification | |
|-------------------------|--------------------------------|
| Vehicle | SUZUKI CARRY BLIND VAN |
| Freezer | DENSO 300 CORE |
| Box Interior Dimensions | L: 791mm x W: 714mm x H: 895mm |
| Payload Capacity | 420 kg |
| Gross Vehicle Weight | 1450kg |
